

Seaweed Meal

Pure Ascophyllum nodosum

Seaperia Seaweed Meal promotes optimal health in all animals and birds. It provides a full range of bio-available minerals plus vitamins and specific amino-acids to boost gut health, immune health, fertility and overall vitality.

FEED RATES	
Cattle - 20 to 50 grams per day or 10 to 25kg per tonne dry feed. Calves - start at 5 grams per day.	Goats and sheep - 5 to 10g per day. Pigs - 20 to 50 grams per day.
Horses - 30 grams maintenance up to 50 grams per day for working horses or pregnant mares. Foals - 30g per day.	Poultry - 10 grams per kilo of feed. Small dogs - a good pinch in food each day. Large dogs - 5 to 10 g per day.

Seaperia Seaweed Meal also boosts soil health and fertility by feeding microbial life and improving water holding and friability.

Sprinkle over worm farms and compost, dig into garden beds, pot plants and wicking beds, add to brews and garden teas. Use one to three handfuls per square metre.

Store in a cool, dry place away from direct sunlight.
